As it is perfectly proper in the premises, the old soldiors have taken the initiative and have invited the entire citizenship to join with them in making this a memorable occasion.

Memhers of the various Frateraal Orders are Invited to participate in the decoration of the graves of their departed brethren, and it ls hoped that there will be a generous response to the invitation. Colonel D. W. McClung, one of tho most

scholarly men in the Ohio Valley, will deliver tho address at Dieterich's Park at 2:30 o'clock The Redmen's Band has been engaged for

the exercises and there will be splendid vocal music as well.

MINERVA COLLEGE.

Exercises Last Evening Most Entertaining and Instructive.

Thronged to its fullost, and out on the amphitheater of nature, the people of Minerva and contiguous territory last evening witnessed the closing exercises of the Minerva College, which were held in the Baptist Church of that

The exercises began at 7:15 through an invocation by Prof. C. K. Dickey of Dover. The choir gave n sweet nnthem, "Let the Hills Bo Joyful;" then the Principal of the College, Prof. E. L. Gillis, introduced President Burris A. Jenkins of Koatucky University, Lexington.

Most felicitously did he preface his address, saying he had heard and read of Minerva ever since he was horn-of her beauty and wisdom, and now he had tho high privilege of seoing her face to face; and then launching into his themo "Education," he spoke eloquently for forty minutes. His stylo of oratory is free, his flow of language easy and charming, his material used was simple, scholarly and apt.

Following l'rof. Jenklns Mrs. Robinson sang n solo, assisted by the choir.

Congressman Kehoe was next introduced to deliver the diplomas to the graduates. He was at his best and spoke act only elequently but so feelingly as to impress both his audience and the members of the graduating class.

Miss Jessie Yancey interspersed the oxercises with a most amusing recitation "The Jiner." for occupancy within the next few weeks. She told it splendidly, and at its conclusion a vociferous outburst of applauso showed such appreciation that she gave another number, her great versatility.

A song by the choir, followed with a duet by Miss Anna Boyd and Dr. Pollitt, were pretty and

The graduates last evening were Miss Julia Worthington of Murphysville, Miss Retta Hawes and Mr. Edgar B. Hawes of Minerva.

Too Great a Risk. In almost every neighborhood some one has died

from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for any one to take. Chamberlain's Colle, Cholera and Diarrhoa Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can nlways be depended upon. THE Cincinnati Commercial Tribune says the verdict in the case of the Commonwealth of Kentucky against James Howard for the killing of Senator Goebel is something of a surprise. He was either guilty of a coldblooded marder to the point of deserving death as his punishment, or he was innocent of all complicity with the erime. It is difficult to believe that the Jury thought him guilty and contented itself with the life sentence it imposed. It is evident the Jury refused to believe HENRY YOUTSEY'S wonderfully-constructed and thoroughly-contradicted story. If the Jury believed him the verdict would have been followed by an imposition of the death

sentence. The Jury did not believe him, but gave the lesser penalty in the undonbted belief that time, which evens all things, would eventually demonstrate the actual facts in the case and put the guilt of the murder on the shoulders which ought to bear it—the shoulders of HENRY YOUTSEY. His story can be interpreted only as the story of the man who himself fired the shot and, being abandoned by his co-conspirators, is seeking to throw the blame on anybody whose shoulders seem fitted for the burden.

That there is reason in that view is borne out by the fact that on the first trial of How-ARD the death penalty was imposed and Your-SEY was not a witness. With Yortsey as a witness, with a story unparalleled for detail, but contradicted in all particulars, with the complete testimony addreed on the first trial also given to the Jury on the last trial, the death penalty is not affixed to the verdict of guilt, but a life sentence in the Penitentiary. Evidently the Jury did not believe HENRY Yoursey, and equally evident that Howard was worthy of the sentence of death, or a verdict of not guilty. He was either guilty to the point of deserving death, or he was not gnilty in the slightest degree.

The above illustration shows the famous JUMBO BUGGY, built by the Anchor Buggy Co. of Cincinnati and on exhibition at Kilpp & Brown's. This immense buggy is the largest ever manufactured, and is built on a plan of four times the regular specifications of the ordinary vehicle. The height is again as great as the ordinary shop buggy with 42-46-inch wheels. If you were to take eight buggles and pile them two high, two wide and two deep it would give you the exact width, height and length of the Jumbo. The wheels of this buggy are 7 feet 4 inches in front, 8 feet 2 inches at theirear. The bed is 112 inches iong, 44 inches wide, and the total height from the ground to the top is 18 feet, and the vehicle will carry easily and comfortably twelve people. The manufacturers, Anchor Buggy Co., have the distinction not only of building the largest buggy in the world, but also of building the best buggles in the world, and their immense trade is the result of furnishing good goods at fair prices.

Nos. 12 and 14 East Second Street, Maysville, Ky. Agents for Anchor Buggies and Phaetons,

To all of that "Tommy Rot" that the Trust men have been feeding you! They were only "Guying" you! They are paid to sell you Trust machines at a big price! They have to offer some excuse for trying to sell you a light-weight, cheaply-constructed and inferior Binder at an advanced price! They dare not admit the truth! If they did no one would buy a Trust machine. So they all tell you that a Minnie Binder is "no good," while we tell you it is the best one on earth. READ THIS STATEMENT AND DECIDE FOR YOURSELF WHO HAS LIED! Some one is guilty!

FEESBURG, Omo, April 21, 1903. This is to certify that I have owned and successfully run for seventeen years a Minneapolis binder which has at any and all times given me complete and absolute satisfaction. This binder that I own-seventeen years old-is a matter of neighborhood gossip. The entire neighborhood knows just what this binder has done, as during that time I have continually cut wheat for my neighbors. This binder has been all over the neighborhood in the past seventeen years; has cut mny and all kinds of grain, over any and all kinds of land, and is absolutely nonehokable. The same canvasses that were on the machine when I bought it are there yet, and I challenge any other blader to show a record of as many acres cut as this machine has cut, seventeen years old. I have practically spent no money for repairs upon this machine all during this time. Other binder companies knowing the age of this machine have all sent their salesmen to sell me a binder of some other make. To each and all of these agents I have made one, and only one reply, you could not give me anything but a Minneapolis binder. If anyone doubts the assertions made in this statement, they have only to ask any farmer in our neighborhood. There are some young farmers living in our neighborhood who remember

farmers that if they ever own a Minneapolis, they will own an Aeme of perfection in binder My address is Feesburg where I can be found at any and all times and I solicit communication in person or by mail by man, woman or child who is interested in this matter.

Gas Company.

At a meeting of the Hoard of Directors of the Muysville Gas Company March 28th, 1903, it was ordered, that on and after the 1st day of April, 1903, the above sliding scale price of gas for all purposes, fuel and Illuminating, should go into

purposes, fuel and Illimitanting, should go into effect for private consumption.

All rates and discounts heretofore made are abolished.

It was also ordered that after the 1st of April the old rule of the Company, "Gas will be turned off, if account is not paid within live days after presentation," shall be strictly and indiscriminately enforced, regardless of whom it may concern. (This action was taken, not to appear arbitrary, nor with the idea that the accounts of the consumers were not perfectly good any time durrary, nor with the idea that the accounts of the consumers were not perfectly good any time during the month, or a year later for that matter, but for the good of all concerned and in order that this part of the business of the Company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the Company's Agents and employes, now so largely occupied with this work of collecting, might, for the balance of the month, be illrected towards giving consumers of gas better attention and more ellielent supply and services.)

vice.)

It was further ordered lbat, beginning the first of May, and for each and every month thereafter, the monthly statement of account of each consumer should be delivered to said consumer by an Agent of the Company on the first day of the month, or second day if the first comes on Sunday, and that said account shall thereafter be due and payable at the office of the Company on Court street within live days, and if not so paid gas will be promptly shut off.

The Gas Company further aumonaces that after

street within live days, and it not so paid gos will be promptly slint off.

The Gas Company further announces that after the first day of April they will hundle and sell at cost price to gas consumers any of the great variety of Gas Stoves and Banges shown in the entalogue of the Detroit Stove Works, which price will be equivalent to 50% discount from the list prices in said catalogue. Said stoves will be sold for eash only, or according to the terms of a printed lease, whereby easy payments are extended over a period of from twelve to seventeen months. For instance: Take a gas rapge listed in catalogue at 236; the Gas Company will sell this range to consumer for \$13 cash, or for \$2.80 cash at signing of lease and 60¢ per month for seventeen months, at the expiration of which time the range is sole property of consumer.

then of gas.

The Gas Company will also handle at cost the flavares and mantels of the Welsbach Company in all of their many attractive varieties.

Infore closing this announcement the Gas Company wishes to publicly express its appreciation of the eminently fair, just and courteous treatment accorded them by His Honor, the Mayor, and Hoard of Council, particularly the Chairman and members of the Gas Committee, through whose efforts in behalf of the private consumers the above concessions in the price of gas are now made.
